DWA_04.3 Knowledge Check_DWA4

_____

1. Select three rules from the Airbnb Style Guide that you find **useful** and explain why.

- Making use of const for all constant references - This helps avoid bugs, incomprehensible code, and makes sure code cannot be reassigned.
  Make use of let/var if code needs to be reassigned.
- Making use of line breaks after opening an array bracket and before closing them when arrays have multiple lines of code. It makes for more readable and cleaner code.
- Making use of modules(import/export) and not including JS filename extensions when importing code in order to protect data from consumers.

_____

2. Select three rules from the Airbnb Style Guide that you find **confusing** and explain why.

- What are array spreads? … - How does it work? 4.3
- How to convert array spreads? - What is the purpose and how does it work? 4.4
- Named function expressions? What is the difference between expressions and declarations? 7.1
